Software Engineer

Job Description

Spectrum Solutions (SSI) specializes in Infrastructure Cabling, Security, Access Control, CCTV, Building Automation and Control Systems. SSI is expanding it's controls system development team to include a developer to design and code customer facing front ends on the Niagara AX platform. SSI is looking for a highly skilled developer, with extensive knowledge of front-end development and someone interested in building a career with our team. Successful candidates should enjoy working in a dynamic team environment and have an enthusiasm and drive to manage and complete projects with detail and precision.

- Write well designed, testable, efficient code
- Transpose site layout/user interface by using responsive HTML/CSS practices and framework
- Gather and refine specification and requirements based on technical needs
- Create and maintain software documentation
- Work independently or in a collaborative manner to solve problems with a positive attitude
- Be responsible for maintaining, expanding and scaling the SSI interfaces and tools
- Stay plugged into emerging technologies/industry trends and apply them to current development and improvements

General Requirements for all positions

- High School Graduate or equivalent
- Must submit to a pre-employment drug screen
- Valid Driver's License with a clean driving record
    - No DUI in last 7 years
    - No Multiple speeding tickets in the last 3 years
    - No Reckless driving tickets in the last 3 years
- ▪ Must pass a background check to obtain a Security Clearance

The following events will disqualify you from being a candidate:

- Not a US Citizen
- Bankruptcy in the last 7 years
- Financially unstable (Foreclosure/Collections)
- Drug or Alcohol Abuse in last 7 years
- Felony Conviction

Skills and Requirements

- Ability to obtain a security clearance
- Be a team player
- Good communications and organizational skills
- Self-starter with strong self-management skills
- Excellent coding and documentation skills
- Ability to organize and manage multiple priorities

- Strong programming skills in one or more of the following:
  Java, HTML, CSS, Javascript (jQuery), AJAX
- Solid visual design skills.
- Some travel may be required

Benefits

Spectrum Solutions offers competitive salary/wages, life insurance, medical insurance, dental insurance, vision insurance, 401k plan, holidays, and vacations.
